TRAINING

WHY THE BAR-ON EQ-i®

The Bar-On EQ-i® is the assessment tool used by EITC to measure the EQ of individuals and organizations. It is, quite frankly, the best tool in the world for this purpose. Once measured, we can then identify areas for development and leverage areas of strength. This process is crucial to focus development efforts on areas which will dramatically improve work and life. It's the first scientifically validated assessment tool for EQ. It's also web-based, flexible for a variety of situations and cost effective to use.

WHY THE BAR-ON EQ-360®

The EQ-360® is a multi-rater assessment which probes further than the EQ-i® by having those who work closely with the individual rate them as well. The objective of the EQ-360® is to combine external impressions of a client's emotional functioning with the client's self-report for a complete picture.

The Bar-On EQ-360 Report highlights key strengths and impediments to high performance, along with areas that could be further developed for optimum functioning. The Bar-On EQ-360® assessment can also be used to follow up and measure progress where formal coaching has been employed as a development strategy.

FIFTEEN DIMENSIONS. FIFTEEN WAYS TO UNDERSTAND HUMAN BEHAVIOUR. WE DON'T STOW OUR EMOTIONS IN THE OVERHEAD. THEY'RE A PART OF US THAT AFFECTS OUR ACTIONS. WE IGNORE EMOTIONS AT OUR PERIL. THINK OF IT AS DEVELOPING THE WHOLE YOU. THEN HELP OTHERS DO THE SAME. BECAUSE BUSINESS IS TOUGH. BECAUSE LIFE IS TOUGHER. BECAUSE PEOPLE ARE EVERYTHING. AND BECAUSE WE'RE NOT ROBOTS.

FOR SUCCESS AT WORK AND LIFE!
